

Library Company of Philadelphia Computer Policies and Procedures

Please read carefully before signing below.

1. All researchers must have anti-virus software installed and updated on their computers before accessing the LCP public network. *If you do not have anti-virus software visit www.grisoft.com and keyword search "free" and download the free version of the AVG Antivirus software.* * **This includes MAC users with the Leopard OS.**
2. All removable media (including thumb drives) must undergo a virus scan by LCP staff before use on any LCP computer.
3. Researchers who fail to abide by these rules will be permanently barred from using Library Company computers in both the library and residence.

I have read and agree to follow the Library Company's Computer Policies and Procedures.
